PEACE

A MESSAGE FROM THE PRINCIPAL

My Dear Students, Parents and Teachers,

In a time of unprecedented challenges and changes, we can clearly understand that the most important thing the world needs today is 'PEACE'. Along with the dreaded Covid – 19 Virus we must all awaken to the need of curing the 'Virus of Violence'.

Violence is impractical and useless because it thrives only on hatred, making brotherhood impossible and ends only in the destruction of all.

Though we live today in an age of rapid globalisation and are connected to far ends of the globe by high-speed Internet and thousands of flights every day, there is one serious disconnect - that is the lack of empathy and compassion. If we are serious about the need for peace in the world, then we shall have to begin with our children. A sound upbringing, where strong values of compassion, love, respect and empathy are taught to our children is the only way to transform the minds of the present generation and the generations yet to come.

We cannot expect peace outside, until its experienced inside.

I'm sure that everyone loves peace. But we cannot build a peaceful world by following a negative path. Peace comes only from being able to contribute the best we have and the best that we are.

As we come to an end of yet another academic year, we thank and praise God for the blessings He has bestowed upon us in the past year and through our persistent efforts hope let us make the best use of the summer vacation to train our children to be loving, compassionate and respectful human beings, so as to make this world the most beautiful, harmonious and peaceful planet in the galaxy.

Wishing all of you a pleasant and fruitful summer vacation.

Principal,
Fr. Anthony Fonseca

TEAM MESSAGE

Dear Readers,

We all want to live in a world where there is no hatred, violence or war. Unfortunately, we can clearly see that most places in the world are bound in the clutches of prejudice, hatred, war and violence. It is therefore necessary to make PEACE our priority by nurturing kindness and compassion. It's not money, owning possessions or living in fancy homes that makes an individual happy. Real happiness comes from Inner Peace and by living a Peaceful Life. A life free from conflicts and hatred, pride and jealousy, ego and revenge is a life worth living.

Hatred and prejudice are factors that hamper the peaceful living of people. These days, there are many mediums through which hatred and prejudice are spread. We've become disproportionately surrounded by negative influences and things that make us feel sad and discontented about ourselves and life. The misuse of WhatsApp, Facebook, Twitter, Blogs, Instagram and smartphones, have successfully worked at poisoning and biasing minds, thereby spreading hatred and prejudice everywhere.

This summer vacation as we stay indoors due to the scorching heat, let us take time to reflect and meditate on the things that can really make our lives more peaceful and meaningful. Let us make kindness and compassion our vibe. It is only when we learn to appreciate and nurture the good around us we can offer good to others too, thus making our existence happier and peaceful. Good deeds are karmic. So always remember, if you Give Good, you Get Good.

The Editorial Team wishes all of you a happy, healthy and peaceful vacation. May we return rejuvenated and strengthened to take on a fresh and new academic year with a vision to accomplish our goals.

Happy Holidays to all.

NEED FOR PEACE

Peace means living together without violence. Without peace, it will not be possible to achieve trust and cooperation of others. With peace, people are able to interact freely with each other and they can learn different cultures from other people. Peace is very important for the existence of mankind.

There will be no place for clashes, wars or riots if there is peace among people in the society. It is our duty to maintain peace in the society.

Peace and harmony promote unity among people. When there is unity among people they can live happily. It is our duty to maintain peace and harmony in society through mutual understanding, love and respect for each other's beliefs, faiths, cultures and traditions. A world filled with PEACE will be a happier and healthier world.

GRATITUDE

God our Loving Father has blessed us in many ways. We all need to be grateful for these blessings, in the form of our parents, siblings, our school, our friends, green plants, water, animals and much more. Our Parents and teachers nurture, guide and help us to become good human beings. We should never be ungrateful to anyone who has helped us in our difficulties. Learning to say thank you to those who have helped us is always the right attitude.

Whether it be a domestic helper, the peon at school or office, the watchman at the gate, the vegetable vendor or anyone else, we must always say 'thank you' to anyone who has helped us in anyway. Gratitude can change our life, as it makes us happier.

When we are grateful for the blessings in our lives we will learn to stop complaining. With this 'attitude of gratitude' we will be able to spread love around and the world will be a happier and peaceful place to live in.

कृतज्ञता

कृतज्ञतेचा आपल्या जीवनावर खूप प्रभाव आहे. कृतज्ञता म्हणजे आपण दुसऱ्याचे आभार मानने जसे देवाचे आभार, देवा तू मला खूप चांगले जीवन दिलेस त्याबद्दल तुझे आभार मानते.

आपल्याजवळ जे काही आहे त्यात सुखी समाधानी असणे म्हणजे सकारात्मक विचार करणे. स्वतःशी आणि दुसऱ्याशी प्रामाणिक राहणे म्हणजेच कृतज्ञता होय. उदा. ज्यांच्याजवळ हात, पाय, डोळे नसतात तरी सुद्धा ते आनंदी असतात त्यांना कोणतीच कमी जाणवत नाही.

आपल्याकडे सर्व काही असून आपण स्वतःला कमी लेखतो चिंता करत राहतो आपण नेहमी चिंता मुक्त राहिले पाहिजे म्हणजेच कृतज्ञता बाळगली पाहिजे.

PEACE

Peace is the way that helps us to prevent inequality and violence. It is no less than a golden ticket to enter a new and bright future for mankind. Without peace, there is no trust. And "If we don't have trust, We don't have anything. Peace is essential in this world if we want to live in harmony with each other. It is a human need. Maintaining peace of mind helps us to achieve goals in our lives. To bring growth and prosperity in a society, the path that wiser people take is of peace and harmony.

When there is world peace, people feel free to visit any country without any fear of terrorism. Even today, there are some countries that are not at peace with each other. This leads to civil war. Peace is one of the most important factors ever human needs.

PEACE AND HARMONY

Peace and harmony are hampered when people fight in the name of faith. We all need to respect each others faith and beliefs in order to live peacefully and in harmony. No nation can prosper or make progress without nurturing brotherhood. Brotherhood fosters peace and harmony among people.

When we learn to help each other and share in each others joys and sorrows our lives are happier. Thus in a world that is getting so bitter with war and hatred , it is time for each one of us to consider the need of Peace and Harmony for us and for the generations to come.

WORKING TOGETHER FOR A BETTER TOMORROW

We all need each other at some point of our life. We need people to talk to, to share our experiences, our joys and our sorrows. When we see injustice, corruption and hatred being spread widely and rampantly, we alone cannot fight it. Rather, when we come together, we can accomplish any mission for the benefit of humanity. Working together for a common cause is the best and right way to reach desired goals..

When we work together, we build harmony in our relationship with others. We are able to live peacefully and happily only when there is harmony in our relationships. Thus, working together peacefully and harmoniously, is the best way we can hope to build a better tomorrow. A tomorrow that will be more prosperous and healthier than ever.

GRATITUDE

Gratitude is a gesture that expresses gratefulness to others. When we form a habit of being grateful to God and to others for all that we receive, we find PEACE and JOY in our own lives.

Showing thankfulness towards others is always good. We have always heard that we need to be polite to the person who has helped us in bad times. If we express gratefulness towards others we feel happier. Thus, gratitude involves appreciation and thankfulness towards others. Gratitude can bring POSITIVITY and PEACE in our surroundings. Being thankful for the things we have is a way through which we can express our gratitude towards God.

For the majority of us, we tend to take the work performed by ordinary workers for granted. Whether it be a waiter, a sweeper, a bus conductor, a maid at home or just the milkman, it is important for us to know how to respect every person and be thankful to them for making our life easier in various ways. We ought to express gratitude for all the blessings in life.

Gratitude, they say, is the best attitude to express how grateful we are to those who make life more meaningful and happier for us.

BEING POLITE AND KIND

Politeness and kindness is a great virtue and provides the highest moral standard to society. Polite and kind behaviour is always admired and appreciated by everyone. People usually like to be around those who are calm, kind, polite, and respectful.

A great man once said that "Be the change you want to see in this world" being calm and polite is a step towards being that change. However, being calm and polite is not easy. The person has to develop a forgiving nature so that he does not become angry even in very bad situations. Showing courtesy to friends and neighbours tends to create a healthy society.

NEED FOR PEACE

Peace is very important for the survival of human beings. It is a human need. Peace is a way for bringing growth and prosperity in life. A peaceful mind helps us in learning and understanding things faster. Peace keeps us mentally and physically fit.

The need for peace in our world cannot be ignored. In fact, there is hardly any disadvantage that comes from having peace rule. Peace is the only way in which wars can be stopped forever.

In these times, where we can see war and bloodshed, hatred and violence, let us bear in mind the powerful words of Mahatma Gandhi, the Father of our Nation "The day the power of love over rules the love of power, the world will know peace."
